WORK EXPERIENCE

LERMA/ Advertising

Sr. Manager, Business Intelligence

Dec 2025 - Present

- Own end-to-end architecture and delivery of analytics products supporting media investment, operations planning, and executive decision-making.
- Built modular transformation layers and governed KPI logic for cross-platform paid media analytics in BigQuery.
- Built AI-assisted natural-language query workflows over marketing analytics datasets, enabling non-technical users to generate strategic client insights without manual SQL analysis.
- Architected and delivered an internal resource insights application supporting operational planning and executive decision-making, including PRD definition, system architecture, governed development standards, and AI-assisted engineering workflows.

Old Republic Title Insurance

Senior Business Intelligence Analyst

2024

- Architected Snowflake-based analytical models integrating operational, financial, and sales datasets into reusable business-facing data products.
- Developed a self-service analytics application using Streamlit + Python enabling natural-language-style exploration of governed enterprise data.
- Improved analytics adoption and stakeholder engagement by aligning semantic definitions and reporting outputs with operational decision-making workflows.

Everbridge, Inc.

Analytics Engineer

2025

- Developed governed semantic models and reusable metrics in LookML supporting customer-facing analytics applications.
- Built and optimized production analytics experiences for DoD-facing systems with emphasis on reliability, usability, and metric consistency.

Central Insurance

Business Intelligence Analyst

2022 - 2024

- Built operational analytics solutions supporting claims, staffing, and financial decision-making using SQL, Power BI, and automated ETL workflows.
- Modernized legacy Excel-based reporting into governed Power BI data products with automated refresh pipelines, increasing adoption by 10x.

EDUCATION

University of Texas at Dallas

Bachelor of Science, Cognitive Science

SKILLS

- SQL, Python, dbt, Snowflake, BigQuery, LookML, Power BI, semantic modeling, ETL/ELT pipelines, Streamlit, Git
