WORK EXPERIENCE

Everbridge, Inc.

Dashboard Engineer

January 2025 - Present

- Own end-to-end analytics product strategy for the DoD JARVISS platform, managing roadmaps and enhancements to drive adoption.
- Lead collaboration between professional services and engineering teams, aligning technical solutions with customer requirements.
- Designed and optimized LookML data models and scalable SQL transformations to improve performance and user experience.

Old Republic Title Insurance

Senior Business Intelligence Analyst

January - December 2024

- Conceived and led the company's first self-service analytics product (Snowflake + Streamlit, Python), enabling natural-language querying for business users.
- Defined requirements and developed a multi-source semantic layer in Power BI, unlocking cross-departmental insights for Sales, Ops, and IT.
- Spearheaded stakeholder training and adoption strategy, increasing active dashboard usage by 40% across 100+ business users.

Central Mutual Insurance

Business Intelligence Analyst

April 2022 – January 2024

- Modernized enterprise reporting by converting legacy static reports into automated, scalable Power BI dashboards, boosting usage 10x.
- Led data pipeline development in SQL Server & Alteryx to integrate HR, claims, and financial data.
- Partnered with business leaders to deliver predictive analytics solutions (e.g., claims severity & staffing models) using advanced Excel.

DFW International Airport

Risk Analyst

September 2021 - April 2022

- Built contract compliance analytics pipeline in Tableau + RMS database, improving oversight of multimillion-dollar airport vendor agreements.

EDUCATION

University of Texas at Dallas

Bachelor of Science, Cognitive Science

SKILLS

- Programming & Data: Python (pandas, numpy, sklearn, matplotlib), advanced SQL (window functions, CTEs, query tuning)
- Product Ownership & Roadmapping: Requirements gathering, stakeholder alignment, feature prioritization, agile delivery
- Analytics & Modeling: Dimensional Modeling, persistent derived tables (PDTs), semantic layer design
- BI/Visualization: Power BI, Looker (LookML), Tableau
