WORK EXPERIENCE

Everbridge, Inc.

Dashboard Engineer

Jan 2025

- Own full analytics and data infrastructure supporting DoD JARVISS system customers.

Old Republic Title

Senior BI Analyst

Jan 2024 - Dec 2024

- Architected Snowflake data models integrating financial, operational, and sales data into unified analytical layers.

Central Mutual Insurance

BI Analyst

Apr 2022 - January 2024

- Built automated ETL pipelines using SQL Server and Alteryx to standardize HR and Claims datasets.

EDUCATION

University of Texas at Dallas

BS, Cognitive Science

May 2018

PROJECT

CANalytics Portfolio CLI — Interactive Web Portfolio SPA

Fall 2025

- Designed a fully interactive, retro-themed portfolio that simulates a command-line interface over the Windows XP "Bliss" wallpaper. Users can run terminal-style commands (can -resume, can -projects, etc.) to explore your resume, projects, and links.
- Tech: React, Tailwind CSS, Vite
- brandoncanalytics.github.io/CLIPortfolio

1 Hard Thing a Day API

Summer 2025

- Created a motivational REST API with FastAPI and PostgreSQL to track personal growth tasks using JWT authentication. Deployed on Fly.io with schema migrations and user management.
- Tech: FastAPI, PostgreSQL, JWT, Fly.io
- one-hard-thing.fly.dev

Corp (Pygame)

Summer 2024

- Built an indie pixel-art management game using Pygame, simulating corporate growth and automation systems. Explored object-oriented architecture, sprite handling, and UI design in Python.
- Tech: Python, Pygame
- canalytics.itch.io/corp-pygame

SKILLS

- Languages & Frameworks: JavaScript / TypeScript, Python, Node.js
- Frontend & Tooling: React / Vite, CLI interfaces, web UI components
- Backend & Data: REST APIs, SQL, Snowflake, ETL pipelines
- Architecture & DevOps: Design patterns, modular services, version control (Git), CI/CD
- Testing & Quality: Unit testing, integration testing, code reviews, clean maintainable code
- Visualization & UI: Looker (LookML), Power BI, data-driven front ends
